

Motivated, teamwork-oriented, Problem-solving, and Detail-oriented Highly educated, possessing a Computer Science Degree, and professional certification in data analysis from google and data science from IBM. Looking for starting a new job as data scientist / analyst.

EDUCATION

Computer Science Engineer , ENSIAS - National School of Computer Science and Systems Analysis, Rabat, Morocco	2018- 2021
Preparatory Classes , Center Mohammed V (MP/MPSI)	2016-2018
Baccalaureate in Mathematics Option B (SMB) , Lycéé Abd El Malek El Saadi de Kénitra	2015-2016

SKILLS

Database/Server/Cloud	My SQL, SQL Server, BigQuery, IBM Db2, Hadoop, Spark, Map reduce
Programming languages	Python, R, Javascript, TypeScript, Java, React Native, flutter, Dart, HTML, CSS
Libraries	Dplyr, tidyR, Ggplot2, Pandas, Numpy, Matplotlib, Sckit-learn, Seaborn
Other Software / Tools	Tableau, SpreadSheet, Excel, Git, Deep Learning, Machine Learning, Big Data
Soft Skills	Creativity, problem solving, Detail-oriented, perseverance, research
Communication	English (Fluent), French (Fluent), Arabic (Native)

TECHNICAL EXPERIENCE

DATA ANALYST FREELANCER <i>Summit Events</i>	03 2021 — 05 2021 <i>Kenitra, Morocco</i>
--	---

- Data Gathering, Data Cleaning, Data Processing from Database of EasyList using python, sql, excel, matplotlib, sckitlearn, seaborn.
- Create a Dashboard (data visualization) using Flutter and add it inside the E-Commerce website of the companies for predicting the sales.
- Create a mobile application and add the dashboard.

DATA ANALYST INTERN <i>EVEAD GROUP</i>	03 2020 — 09 2020 <i>Casablanca, Morocco</i>
--	--

- Data Gathering, Data Cleaning, Data Processing from Databases of two companies EMILAC SEMILAC using python, sql, excel, matplotlib, sckitlearn, seaborn.
- Create a Dashboard (data visualization) using Angular and add it inside the E-Commerce website of the companies for predicting the sales.
- Create a mobile application and add the dashboard.

DATA ANALYST INTERN <i>Ministry of Economy and Finance Rabat</i>	07 2019 — 08 2019 <i>Rabat, Morocco</i>
--	---

- Parsing financial data from xml files, data cleaning, data processing, Using descriptive Statistics and using java.
- Create A Dashboard (data visualization) for displaying financial data about the imports of companies.
- Create A mobile Application to display the dashboard.

PROJECTS

Cookie Company Performance Dashboard	02 2022
---	----------------

- data cleaning and data preparation
- create a dashboard for visualizing the cookie company performance using Power BI, deploy and maintain the deliverable.

Machine Learning using deep neural network	01 2022
---	----------------

- building a model of ML using DL network for predicting a cat inside an image.

SpaceX Launch Records Dashboard	01 2022
--	----------------

- web scraping data from spaceX api.
- create a dashboard for SpaceX Launch Records Dashboard for visualising all the records for each launch sites using Plotly and Dash python libraries.
- predicting the success of first stage of Falcon 9 rockets after their return to the earth

My World Happiness Map	11 2021
-------------------------------	----------------

- web scraping data from open public data using big query and sql.
- create a dashboard for global happiness rate around the world using Tableau, deploy and maintain the deliverable

CERTIFICATES

IBM Certified Data Engineer - Big Data	2021
Google Data Analytics Certificate	2021
IBM Data Science Professional Certificate	2022
Neural Networks and Deep Learning	2022
Microsoft Certified: Data Analyst Associate with Power BI	2022
